## Terms & Conditions

Sod totals are approximate.

Field measurements will be used at close of project to determine exact amounts used and price will be adjusted accordingly.

Trees, sod, and plant material exposed to frost and/or freezing conditions cannot be guaranteed.

Clean up of site limited to debris and waste generated by this contractor.

If extraneous or deleterious materials or conditions detrimental to plant growth or installation of any material are encountered, an on-site review will be done, and the General Contractor, Owner's Representative, or Owner notified of recommendations and the costs involved for remedial actions.

Customer is solely responsible for all underground obstructions, including without limitation utility lines, limerock, and construction debris. Sunrise Landscape reserves the right to pass onto the Customer any additional actual costs it incurs if unusual or unanticipated ground conditions such as rock formations or other underground obstructions impede the installation contemplated under this Contract.

The Owner shall properly maintain trees and plant materials after final acceptance in order to maintain unobstructed visibility for pedestrians and vehicles.

These notes become part of any contract or agreement entered into unless specific exceptions are made in writing stating otherwise, adding to or deleting from scope of work.

Watering Restrictions: Sunrise Landscape is bound by local water restrictions which may in fact result in irreparable stress and /or demise of landscape plant material and turf. Sunrise Landscape cannot be held responsible for long or short term drought related stress, damage, or demise of landscape plant material and turf with regards to restricted irrigation regulations over which Sunrise Landscape has no direct control.

Any work or items not specifically included are excluded.

Annuals are excluded from warranty / guarantee.

Irrigation is not included in this proposal. Landscaping without automated irrigation cannot be guaranteed.

Lien: According to Florida's Construction Lien Law (sections 713.001-713.37, Florida Statutes), those who work on your property or provide materials and are not paid in full have a right to enforce their claim against your property. This claim is known as a construction lien. If your contractor or a subcontractor fails to pay subcontractors, sub-subcontractors, or material suppliers or neglects to make other legally required payments, the people who are owed money may look to your property for payment, even if you have paid your contractor in full. If you fail to pay your contractor, your contractor may also have a lien on your property. This means if a lien is filed your property could be sold against your will to pay for labor, materials, or other services that your contractor or a subcontractor may have failed to pay. Florida's Construction Lien Law is complex and it is recommended that whenever a specific problem arises, you consult an attorney.

Attorney Fees: In any litigation, arbitration, or other proceeding by which one party either seeks to enforce its rights under this Agreement (whether in contract, tort, or both) or seeks a declaration of any rights or obligations under this Agreement, the prevailing party shall be awarded its reasonable attorney fees, and costs and expenses incurred.

This claim is known as a construction lien. If your contractor or a subcontractor fails to pay subcontractors, sub-subcontractors, or material suppliers or neglects to make other legally required payments, the people who are owed money may look to your property for payment, even if you have paid your contractor in full. If you fail to pay your contractor, your contractor may also have a lien on your property. This means if a lien is filed your property could be sold against your will to pay for labor, materials, or other services that your contractor or a subcontractor may have failed to pay. Florida's Construction Lien Law is complex and it is recommended that whenever a specific problem arises, you consult an attorney.

Attorney Fees: In any litigation, arbitration, or other proceeding by which one party either seeks to enforce its rights under this Agreement (whether in contract, tort, or both) or seeks a declaration of any rights or obligations under this Agreement, the prevailing party shall be awarded its reasonable attorney fees, and costs and expenses incurred.

## **The Objective and Scope of the Audit of the Financial Statements**

You have requested that Berger, Toombs, Elam, Gaines and Frank (“we”) audit the financial statements of North River Ranch Improvement Stewardship District, (the “District”), which comprise governmental activities and each major fund as of and for the year ended September 30, 2023, which collectively comprise the basic financial statements. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter for the year ending September 30, 2023.

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America (GAAS) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

## **The Responsibilities of the Auditor**

We will conduct our audit in accordance with (GAAS). Those standards require that we comply with applicable ethical requirements. As part of an audit in accordance with GAAS, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we have identified during the audit.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for the reasonable period of time.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements may not be detected exists, even though the audit is properly planned and performed in accordance with GAAS.

We will maintain our independence in accordance with the standards of the American Institute of Certified Public Accountants and Generally Accepted Governmental Auditing Standards.

3. Informing us of its knowledge of any allegations of fraud or suspected fraud affecting the District received in communications from employees, former employees, analysts, regulators, short sellers, vendors, customers or others.

The Board is responsible for informing us of its views about the risks of fraud within the entity, and its knowledge of any fraud or suspected fraud affecting the entity.

Our audit will be conducted on the basis that management acknowledges and understands that it has responsibility:

1. To evaluate subsequent events through the date the financial statements are issued or available to be issued, and to disclose the date through which subsequent events were evaluated in the financial statements. Management also agrees that it will not conclude on subsequent events earlier than the date of the management representation letter referred to below;
2. For the design, implementation and maintenance of internal control relevant to the preparations of fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; and
3. To provide us with:
  - a. Access to all information of which management is aware that is relevant to the preparation and fair presentation of the financial statements including information relevant to disclosures;

- c. Additional information that we may request from management for the purpose of the audit; and
- d. Unrestricted access to persons within the District from whom we determine it necessary to obtain audit evidence.

As part of our audit process, we will request from management written confirmation concerning representations made to us in connection with the audit, including among other items:

- 1. That management has fulfilled its responsibilities as set out in the terms of this engagement letter; and
- 2. That it believes the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

Our report will be addressed to the Board of North River Ranch Improvement Stewardship District. We cannot provide assurance that an unmodified opinion will be expressed. The timely and accurate completion of this work is an essential condition to our completion of the audit and issuance of our audit report, which must be completed and filed with the Auditor General within nine (9) months after the end of the fiscal year. If the information is timely provided, the District shall receive a draft by May 15, 2024, and if the draft is timely reviewed by Management, the District shall receive the final audit by June 15, 2024.

## JAN-PRO SIGNATURE CLEAN®

It's not  
just what  
we clean.  
It's how we  
clean it.

### The process is simple: Trusted + Clean = Guaranteed.

The JAN-PRO Process is designed to guarantee customer satisfaction through quality, technology, and measurement for a consistent clean from the same reliable owner-operators – every time.

#### STEP 1:

### JAN-PRO Signature Clean® Services = Quality Commitment

Every JAN-PRO professional goes through the most in-depth certification in the industry, ours.

#### Our 5-week certification program includes:

- How to work safely in public areas
- How to maintain bacteria-free surfaces
- How to work faster & greener
- How to dust offices without disturbing them
- The importance of chemical dwell time
- Treatments for hard floors
- Thorough carpet-cleaning techniques
- OSHA safety protocols

Our owner-operators are uniformed, bonded, and insured – so you can trust us to get the job done safely and professionally.

# JAN-PRO TECHNICS® & JAN-PRO TRACKER®

## STEP 2:

### JAN-PRO Technics® Technology = Quality Delivered

The JAN-PRO Technics® technology is the science behind our services. We deliver quality using the most advanced products and equipment, including:

- Hospital-strength disinfectants for the broadest kill range of surface bacteria
- HEPA-rated backpack vacuums that filter out 99.9% of particles from the air
- Microfiber cloths and mops that trap dirt more efficiently and effectively
- Eco-friendly cleaning chemicals that cover a greater area while using less product
- The best safety equipment available

## STEP 3:

### JAN-PRO Tracker® Inspections = Quality Measured

We mean clean – but it's only clean when we confirm it's clean. With our JAN-PRO Tracker® inspections, we routinely check our work and benchmark our results:

- First, we assess your cleaning needs and decide where to focus our expertise.
- After the initial period (usually 30 days), a JAN-PRO field service consultant inspects your property using our 50-point checklist – so no spot, nook, or cranny is overlooked.
- Adjustments are made if needed, and the inspections continue on a regular schedule.

## Put JAN-PRO's EnviroShield® system to work for you!

At JAN-PRO, we've paved the way in commercial cleaning since 1991 – thanks in part to innovative technology like our proprietary EnviroShield® system which provides total disinfection with an eco-friendly, hospital grade solution that other systems can't reach.

### How It Works

- † JAN-PRO's EnviroShield® system uses a disinfectant that is EPA-rated as the safest in its class while being powerful enough to kill 99.9% of harmful bacteria, including MRSA, H1N1, E. coli, and listeria.
- † Our equipment features an electrostatic nozzle designed for specific areas and applications.
- † Electrostatic technology applies a negative charge to a 30-micron droplet, ensuring 100% surface contact.
- † The negative charge causes the disinfectant to cling to and fully cover every surface it touches – thus providing total disinfection.

### Why It Works

- † Our disinfectant is safe enough for everyday use and won't cause skin, eye, or respiratory issues.
- † It is environmentally friendly, and won't leave behind any residue or odor.
- † Our unique sprayer allows us to treat areas and surfaces other cleaning systems can't reach.

60% of illnesses that result in absence from work are contracted from equipment in the office.

The level of bacteria on an elevator button is 3x higher than the amount found on public toilet seats.

Desks are 100x less hygienic than the average kitchen table yet 60% eat at their desk.

The typical worker's hands come in contact with 10 million bacteria per day. JAN-PRO's EnviroShield® system protects you from 99.9% of them.

32% of people admit to not washing their hands after using the restroom.

Touching a hand rail is like shaking hands with 10,000 people.

Nearly 22 million school days are lost each year due to the common cold.

This Agreement is made between JAN-PRO OF MANASOTA ("JAN-PRO ") Neal Land & Neighborhoods ("CLIENT"). CLIENT and JAN-PRO agree that JAN-PRO will begin service at the location(s) identified above and under the below terms.

1. **JAN-PRO** agrees to perform the recurring janitorial services and at the frequencies stated in pricing agreement.
2. **JAN-PRO** will provide all chemicals, equipment, labor, and supervision. **CLIENT** will provide all restroom paper products, hand soap and can liners.
3. **JAN-PRO** will fulfill its obligations under this Agreement through its franchised system. **JAN-PRO** will identify the franchisee selected to service **CLIENT** before the start date of service. Each franchisee has been successfully trained on the **JAN-PRO** methods and procedures and is bound by the terms of this Agreement. **CLIENT** has the right to request a change in franchisee at any time.
4. **JAN-PRO** sends invoices at the beginning of each month for the recurring janitorial services, with payment terms at net 30 days. All additional services are invoiced as incurred, with payment terms at net 30 days.
5. This Agreement is for a term of one year from the later date of signing or the start of services. This Agreement automatically renews every year with a 3% increase, this will be discussed with client, unless either party gives written notice of non-renewal at least 30 days before the expiration date.
6. **CLIENT** agrees to verbally notify **JAN-PRO** of any service issues before **CLIENT** provides any written notification.
7. This Agreement may be terminated for non-performance only and the terminating party must give the other party written notice specifying in detail the nature of any non-performance. The non-terminating party will then have 5 working days to cure to the reasonable satisfaction of the terminating party. If the non-performance is not cured within the 5 working days the terminating party will notify the non-terminating party in writing of the failure to cure, and this Agreement will terminate 30 days after the date of the notice. All written notices must be timely and by overnight courier. This contract will be evaluated yearly for a 3% price increase to keep up with rising cost of supplies, labor and insurance. No price increase will occur without prior discussion with client.
8. **CLIENT** agrees that during the term of this Agreement and for 180 days after the expiration or termination of this Agreement, **CLIENT** will not employ directly or indirectly any **JAN-PRO** employees, agent representatives, franchisees, or former franchisees.
9. In addition to any other rights, **JAN-PRO** may have, if **CLIENT** breaches this Agreement, **JAN-PRO** is entitled to all costs of **JAN-PRO**'s costs of collection, including reasonable attorney fees, paralegal fees, and collection agency fees, in addition to **JAN-PRO** 's lost revenues for the remainder of the term.
10. **JAN-PRO** annually observes the following federally recognized holidays: New Years' Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving, and Christmas. **JAN-PRO** will not provide services on these days. Other conditions may apply that preempt a cleaning. No credit will be given for holiday as this is already factored into pricing.
11. **JAN-PRO** and **JAN-PRO**'s franchisee will each maintain commercial general liability insurance of at least \$1,000,000 per occurrence. \$2,000,000 in the aggregate automobile liability, coverage of at least \$1,000,000 and janitorial bonding of at least \$50,000.

If you're looking for the highest resolution, intelligent analytics, professional design, or knowledgeable staff, Securiteam can provide the best solution to meet your needs. Securiteam leads the way by providing the best technologies through strategic partnerships.

## Better-Than-Guard Level Security a Fraction of the cost

When Human presence is detected in an authorized area, the signal is sent to our state-of-the-art remote video monitoring center. Once the activity is verified by the remote officer, your custom predefined action plan is implemented which may include a live voice to the premises. The best part is that our cameras do not sleep, take breaks call out sick or ever get distracted.

## Limit False Alarms and Save Storage

Using scene adaptive intelligence and varied analytical profiles, Advanced analytics reduce remote and local guard costs by eliminating most nuisance alarms that occur with conventional video motion detection. Simply put, our partners technologies can identify the difference between a person, a bird and windblown leaves where simple video motion cannot.

**RE: Estimated Cost for Various Testing, Engineering and  
Inspection Services for  
North River Ranch Phase 4 F Infrastructure  
construction (does not include homesite construction)  
Manatee County, Florida  
Our Proposal No. SAL232046P**

Dear Mr. Richardson:

**DRIGGERS ENGINEERING SERVICES, INC.** is pleased to provide you with an estimated cost for budgeting purposes for the aforementioned project. We have reviewed the plans and specifications provided to assemble a basic scope of services needed for the project. This scope of work is based on several factors including specifications and testing frequencies developed by the engineer of record, governing agencies, and owner specifications. In addition, contractor performance and usual factors such as weather and material changes or substitutions will control our scope of work and can only be estimated based on prior history and general practices.

As with any project any reduction in estimated services would be a cost savings to you. Any testing services beyond the estimated amounts would be billed at the agreed upon rates and processed through change orders. We feel a budget of **\$ 75,030.00** should be anticipated for this project's needs. Attached you will find a list of services for this project. In this list may be services that may not apply to the project at the time of submission but maybe needed during the course of the project based on design or contractual changes. This is done to reduce the number of change order request during the course of the project and thereby controlling cost.

**DRIGGERS ENGINEERING SERVICES, INC.** appreciates the opportunity to provide you with this proposal. Should you have any questions or require additional information, please don't hesitate to contact us at your convenience. Attached you will also find a standard contract to be completed, should you decide to go forward.

Respectfully Submitted,

Inspection Services for  
North River Ranch Phase 2 SITE MASS GRADING  
Limited Infrastructure Construction  
(misc. storm sewer for pond penetrations)  
Manatee County, Florida  
Our Proposal No. SAL 232018P**

Dear Mr. Richardson:

**DRIGGERS ENGINEERING SERVICES, INC.** is pleased to provide you with an estimated cost for budgeting purposes for the aforementioned project. We have reviewed the plans and specifications provided to assemble a basic scope of services needed for the project. This scope of work is based on several factors including specifications and testing frequencies developed by the engineer of record, governing agencies, and owner specifications. In addition, contractor performance and usual factors such as weather and material changes or substitutions will control our scope of work and can only be estimated based on prior history and general practices.

As with any project any reduction in estimated services would be a cost savings to you. Any testing services beyond the estimated amounts would be billed at the agreed upon rates and processed through change orders. We feel a budget of \$ 74,650.00 should be anticipated for this project's needs. Attached you will find a list of services for this project. In this list may be services that may not apply to the project at the time of submission but maybe needed during the course of the project based on design or contractual changes. This is done to reduce the number of change order request during the course of the project and thereby controlling cost. This proposal includes testing based on general commercial standards for frequencies of test at 1 per lift every 10,000 ft square.

**DRIGGERS ENGINEERING SERVICES, INC.** appreciates the opportunity to provide you with this proposal. Should you have any questions or require additional information, please don't hesitate to contact us at your convenience. Attached you will also find a standard contract to be completed, should you decide to go forward.

Respectfully Submitted,

# FEEDBACK

POSITIVE OR NEGATIVE	COMMENT	ACTION TAKEN
POSITIVE	“Great event! We had so much fun!” - Kelley Martin Perez (resident re: Community Camp Out)	N/A
POSITIVE	“Our kids and many neighbor kids had SO much fun! Lots of men were playing flag football and everyone had a great time.” -Susan Hart (resident re: Field Day)	N/A
NEGATIVE	“Any update on the bicycles? I see there are 2 new ones at the Brightwood facility. I could not unlock any of the 4 today.” - Patrick Heslin (Resident)	Emailed Resident: “We send a weekly email with updates regarding amenities (every Sunday at 9am). There have been no changes in the past two weeks – The maintenance and getting the new bikes completed and to NRR is still in progress.”
NEGATIVE	“Every time we’ve been to the park its open. Are there any plans to ensure it’s only for members? Last Sunday a woman got bit by her dog who was been chased by an aggressive dog. I don’t know if the aggressive dog is from the community and it’s a free for all. I would prefer it is only for NRR residents.” -Martha Embry (Resident re: dog park)	Emailed Resident: “Yes - The dog park is under lifestyle and the district. HOA is only responsible for matters with your homes. The dog park is for residents use only. There is not electricity on that site to add key fob access. Dog behavior is the owner’s responsibility.”
NEGATIVE	“Hi, I often run the paths and almost daily I run into people who are driving golf carts on them or scooters or electric bikes, and I have to move to the side so that they can pass. Today in between 230 to 330 there were two golf carts on his path. My recommendation is to put signs that say reminder no golf carts allowed.” -Joshua Melançon (Resident)	Emailed Resident: “Hi Joshua, I understand your concerns. A couple weeks ago, I put a reminder in our weekly email and passed this on to the district.. I have cc:ed the district here so they can see your suggestion. Thank you for bringing this to our attention.”

# REQUESTS

REQUEST	JUSTIFICATION
Bike Quarterly Maintenance	As the bikes are used and more are incoming, quarterly maintenance needs to be implemented to ensure safety.
Large Battery Operated Fans	To be used at Brightwood FitPod to provide safer environment for the fitness classes that take place in direct sunlight due to no shade structure.
Squat Rack with Plates	We have a very active neighborhood and a fitness center that is heavily used. Residents have recently been requesting we invest in more equipment. A squat rack with plates is a versatile training tool for every level.
Low Noise Generator	To be used for events at locations without power such as the dog park, Wildleaf Park, Riverfield Pocket Park to run stereo, etc.
