Lost and Found Property

All property found at any amenity of North River Ranch will be recorded, collected, and placed in a designated bin to be available for homeowner collection during calendar listed Resident Services Office open hours or new homeowner orientations. Lost and found items will be kept for a period of one month, after which items will be donated.

Value deemed items such as jewelry, electronics, and confidential personal property will be kept for a period of 1 year at Resident Services Office. All efforts will be made to return the value deemed item(s) by e-newsletter notifications and neighborhood social pages. Thereafter, the items will be donated or suitably disposed.

Natural Buffer Areas Policy **Statement**

The following is the policy statement of the District as it regards the natural tree protection, wetland and upland buffer areas that are scattered in large numbers throughout the Community. The policy statement is consistent with the policies of other governments including Manatee County, and Southwest Florida Water Management District (SWFWMD) as it regards their natural, conservation tree protection and wetland conservation/preservation areas:

The natural areas are not intended to be maintained. These areas are to be left untouched to allow for nature to take its normal course. Vegetation that dies including, but not limited to trees, are left to fulfill their role in nature's process.

Trees, within or immediately adjacent to these areas that have died and appear to pose a threat of falling and damaging an abutting property owner's property may be addressed as follows: Such abutting property owner must initially contact the District. The District will send a representative to confirm that the tree in question is located on District property. Once confirmed, the District will send an arborist to determine whether the tree poses a hazard. If so, and at its discretion, the District will remedy the situation by removing the tree or a portion thereof. If it is determined that the tree does not pose a hazard, the property owner may elect to cut or remove the tree at their own expense. Such abutting property owner must secure permission from the District and shall then be responsible for any needed permitting or review by Manatee County and SWFWMD. The goal of permitted trimming and/or removal, where warranted, is to minimize disturbance to these areas.

If a tree does fall onto another's property, that property owner has the right to cut back or limb the tree as necessary to their individual property line. The rest of the tree is to be left as is. This would also pertain to normal maintenance, which would allow an owner to trim back any encroaching vegetation to their property line. No one can encroach into the natural areas for any reason, from maintenance to placement of personal property of any kind.

LIGHTNING & INCLEMENT WEATHER

North River Ranch follows the standard lightning safety protocols based on guidelines from organizations like the **National Lightning Safety Institute (NLSI)** and the **National Weather Service (NWS)**.

1. Pool Closure Timing

- Pools are usually closed when thunder is heard or lightning is seen.
- This facility uses "**30-30 rule**":
 - If thunder is heard within **30 seconds** of a lightning flash, the storm is close enough to be dangerous.
 - Pool should remain closed for **at least 30 minutes** after the last thunderclap or lightning strike.

2. Evacuation Protocol

- Swimmers must **exit the water immediately**.
- Patrons are often directed to a **safe shelter** (fully enclosed buildings with plumbing & electricity). They cannot remain within the pool gates.

3. Resuming Pool Activities

- Pools remain closed for **30 minutes after the last observed lightning or thunder**.
- Each new lightning/thunder event resets the 30-minute clock. **NRR will use the Weather Bug app for lighting detection.**

ADA CHAIR LIFT USE POLICY

1. A chairlift is located in the closet of each pool.
2. ADA chair lifts are for use by disabled Patrons and Guests only. Users should consult with their physician to determine if water activities are appropriate for them.
3. Chair lifts are designed for self-use. Amenity Management Staff is not authorized to assist Patrons or Guests with use beyond initial review of operating instructions.
4. Use of the chair lifts by non-disabled Patrons or Guests will result in immediate suspension from the facility for a period of one (1) day, no exceptions.

FECAL INCIDENTS

When dealing with fecal incidents, remember that you are dealing with the public and you should explain the situation by using words such as “waste” and “stool”.

1. Immediately instruct all swimmers to exit the pool and pool deck.
2. Close the pool to prevent further contamination.
3. Place signs on all gates.
4. Wear disposable gloves to avoid direct contact with fecal matter.
5. If necessary, use a net or scoop to remove solid feces. Disinfect the net or scoop immediately after removal.
6. Dispose of it properly in a sanitary manner (e.g., sealed plastic bag placed in trash can).
7. Notify the manager on duty or RSS right away-they will call the pool company then send notification to the community regarding the closure, after length of time is determined.
8. Record the date, time and corrective actions taken using the incident report.

VOMIT AND BLOOD CONTAMINATION

Vomit and blood contamination are unlikely to spread illness in pool water however precautions should be taken. When it is reported that someone has vomited **in the water**, or the water have been contaminated with a large amount of blood the response should be the same as solid stool in the water. Temporarily close the pool and follow the above procedure (for fecal incidents).

Fecal, Vomit or Blood Contamination on Deck:

When an accident happens on the deck the area must be closed off, cleaned, and sanitized. No matter what, the contaminant should be handled in the same way. Bio hazard clean up kits are located in the pool office with all of the necessary personal protective equipment and tools to assist with safe cleanup. Additional tools that will be needed for the proper cleanup can include a bleach/water mixture, deck brush, and a mop bucket.

Follow These Steps:

1. Close off the area.
2. Use the absorb powder to solidify any liquids.
3. Use the scoop from the bio kit and scoop as much as possible and place in bag.
4. After all of the loose material is removed spray the area with disinfectant.
5. Scrub the area with the deck brush.
6. Wash the area down with water to the nearest drain.
7. Dispose of contamination properly
8. Sanitize all used equipment with 50% bleach/water mixture.

ROTATIONS, CHECKLIST & BREAKS

- During all rotations, conversations should be kept to a minimum, and changes shall be quick and performed in a professional manner while still scanning your area of responsibility.
